

Zazzle Content Modules Reference

Version 1.0 beta

As you edit the HTML code in your gallery, you will see references to proprietary Zazzle modules which constitute parts of your gallery. Zazzle content modules are major functional pieces of your Zazzle gallery. You're already familiar with features such as the Comment Wall or Fan Club. Some of the smaller pieces of your gallery are also considered modules, like the title displayed by default on each page of your gallery or the "About" link. You can configure these modules on the Content Definition page interface and in your gallery code, in the Advanced tab. For example:

```
<z:module name="commentwall" visible="true" />
```

This line uses the Zazzle Markup Language (ZML) element `z:module` to make the Comment Wall visible to your customers. This document lists all of the available modules, maps the names of the modules in HTML to their names in your gallery, and provides a description to help you find the module in your gallery.

You can make each of these modules invisible or remove one or more from your gallery code entirely. Because these modules provide important features in your gallery, be careful about removing them or making them invisible.

For more information about `z:module` and the ZML, see the *beta* [ZML Reference](#). For more information on coding in your gallery, see the *beta* [Zazzle Advanced Gallery Customization Guide](#).

HTML Module Name	Name on Gallery Page	Function Description
about	About	Your profile information.
commentwall	Comment Wall	Consists of three tabs of comments, On Gallery Wall, On Products, and Made By [you].
fanclubs	Favorite Galleries link	The list of gallery fan clubs you have joined.
favorites	Favorites link	The list of products from other galleries you have added as favorite products.
featuredcategories	Featured Product Lines link section	Navigation category for links to your product lines.
featuredproducts	Product grid	A shortcut to the "homeproducts" product grid that forces "featured" products to be displayed.
gallerystatistics	Gallery stats	Number of views your gallery has received today and total views of all time.
homecontent	Title and description	The title and description text for your gallery.
homeproducts	Grid of 12 product views	Displays on your home page either featured products, 12 most recent products, or the 12 most popular products in your gallery. You can choose the product set to display on the Settings tab of your gallery's Content page.

inforavigation	The top of the navigation column.	Contains standard components such as the name of the gallery.
myfanclub	The Fan Club link	List of members who have joined your gallery's fan club.
pagetitle	The generic page title component	Used as the title on pages which don't have titles specified using homecontent for the home page or productlineinfo for the product page.
popularproducts	Product grid	A shortcut to the "homeproducts" product grid that forces the 12 most popular products to be displayed.
productlineinfo	Displayed from Product link.	Title and description text for a product line.
productlines	Product Lines, in Navigation column	Links to product lines.
productsearch	Search component	Search input module in Navigation column.
productsgrid	Product grid	The grid of products displayed as the result of a search of product line link.
producttypes	Product Types area in the Navigation column.	Contains links to gallery items by product type, e.g., T-Shirts, Mugs, Mousepads.
promote	Promote This Gallery in the Navigation column.	Link to "Help promote my gallery!" page.
recentproducts	Product grid	A shortcut to the "homeproducts" product grid that forces the 12 most recent products to be displayed.
tags	Tags, in Navigation column.	Navigation column area for navigation links for all tags present in this gallery.
toppicks	[gallery name] Top Picks...	Displays a slideshow of three top products.
